

Prerequisite to write a program in Python

(i) Editor (ii) Programming lang (python)

(iii) Translator (interpreter)

Editor

There are mainly two types of editor
(i) Default editor (ii) Third party editor

Default Editor :- The editor which is already present during the installation of the operating system

Eg → Notepad in Windows
Text-editor in UBUNTU

Third party editor :- The editor which is needed to be installed manually in system

Eg → Notepad ++
Sublime text, etc.
