

// Sum of digits

```
class Main {  
    public static void main (String args[])  
    {  
        int n = 123; int s = 0;  
        for (int i = n; i != 0; i = i/10) {  
            int r = i % 10;  
            s = s + r;  
        }  
        System.out.println ("Sum of the digits"  
                               + s);  
    }  
}
```

// Reverse number and palindrome

```
class Main {  
    public static void main (String args[])  
    {  
        int n = 333;  
        int s = 0;  
        for (int i = n; i != 0; i = i/10) {  
            int r = i % 10;  
            s = s * 10 + r;  
        }  
        System.out.println ("Reverse = " + s);  
    }  
}
```
